HANDWRITING ASSESSMENT AND INTERVENTION PACKAGE

Does your child struggle to form letters?
Complain of pain or discomfort when writing?
Avoid or become distressed when asked to write?
Have writing that is difficult to read?

If so, this assessment and intervention package will help. 6 sessions of 45 minutes are offered during which an assessment of any underlying difficulties will be highlighted. A play based approach is used to improve engagement with even the most reluctant writer to begin to address the underlying causes to the difficulties.

- Packages are bespoke and tailored to each child's individual needs.
- A report will be provided at the end of the 6 sessions to highlight any underlying issues found during assessment alongside recommendations to take forward.
- Sessions aim to develop interest in completing a variety of play based fine motor activities.
- Sessions are suitable from age 3.
